

MOHAMED KUTHUBUDEEN

Senior Full Stack Developer

Profile Overview

Experienced Full Stack Developer with over 10 years of expertise in building high-performance applications, crafting robust APIs, and delivering seamless web solutions using Laravel, PHP, and JavaScript. Dedicated to creating user-focused, innovative software that drives business growth. I invite you to explore my journey, skills, and projects at kuthub.com – I look forward to connecting with you!

Professional Experience

Freelance Web Developer

(Jan 2016 – Nov 2019), (Jan 2024 – Currently)

- Designed and developed responsive, scalable websites and applications using Laravel, PHP, JavaScript, WordPress, WooCommerce, PrestaShop, and CodeIgniter, ensuring seamless user experiences and robust back-end functionality.
- Maintained and optimized production-level legacy projects for companies by fixing critical issues, improving performance, and integrating new features to enhance functionality.

Senior Web Developer

Rsoft, Chennai – (Apr 2023 – Nov 2023)

- Successfully managed a development team, fostering a collaborative and efficient work environment.
- Developed a web-based IVR system that handled client calls, capturing information about customer sales, leads, inquiries, and complaints directly within the application.
- Created a dynamic form builder feature, enhancing the flexibility and usability of the web application to meet diverse client needs.

Senior Web Developer

Sri Hema Infotech, Chennai – (Apr 2022 – Mar 2023)

- Led the development of a taxi booking app for UK-based companies, creating a comprehensive API and ensuring a scalable, user-friendly solution.
- Implemented Pusher WebSocket, Firebase push notifications, DB query optimization, multi-role authorization, and multi-guard authentication.
- Guided and mentored team members, fostering a collaborative and productive work environment.
- Communicated effectively with clients to understand requirements, delivering tailored solutions and translating technical concepts for non-technical stakeholders.

Senior Web Developer

Caxigo Technologies, Kozhikode – (Dec 2019 – Nov 2021)

- Worked on Proffin ERP (Gulf region) and Sinfosys ERP (Singapore and Malaysia) modules like inventory management, POS, finance, procurement, and e-commerce.
- Developed a REST API for POS systems, integrated Google Translate API for Arabic, Loyverse API for online POS, and PayPal for e-commerce payments.
- Identified new technologies to enhance product value and team productivity, improving existing features for better user experience.

Junior Web Developer

AD Sysinfo, Chennai – (Jan 2015 – Oct 2015)

- Developed responsive and user-friendly websites using PHP and WordPress, ensuring optimal performance across devices.
- Converted wireframes and mockups into interactive web designs, transforming static designs into dynamic PHP web pages.
